### I have down syndrome

Even though I have down syndrome, my life is a lot like yours. I read books and watch TV. I listen to music with my friends. I am on the swim team and in chorus at school. And I get along with my sisters - except when they take my CDs without asking!

Some of my classes are with typical kids, and some are with kids with learning disabilities. I have an aide who goes with me to my harder classes, like Math and Biology. She helps me take notes and gives me tips on how I should study for tests.

Having down syndrome is what makes me "me." And I'm proud of who I am. I am a hard worker, a good person, and I care about my friends.
